INDUSTRY-LEADING INNOVATION

With its advanced feature set and convenient daily updates via the Internet, the network-capable *PaintManager XI* software program provides formulations for OEM cars and trucks, commercial fleets and custom colors—plus service for the light industrial segment—all within one convenient application.

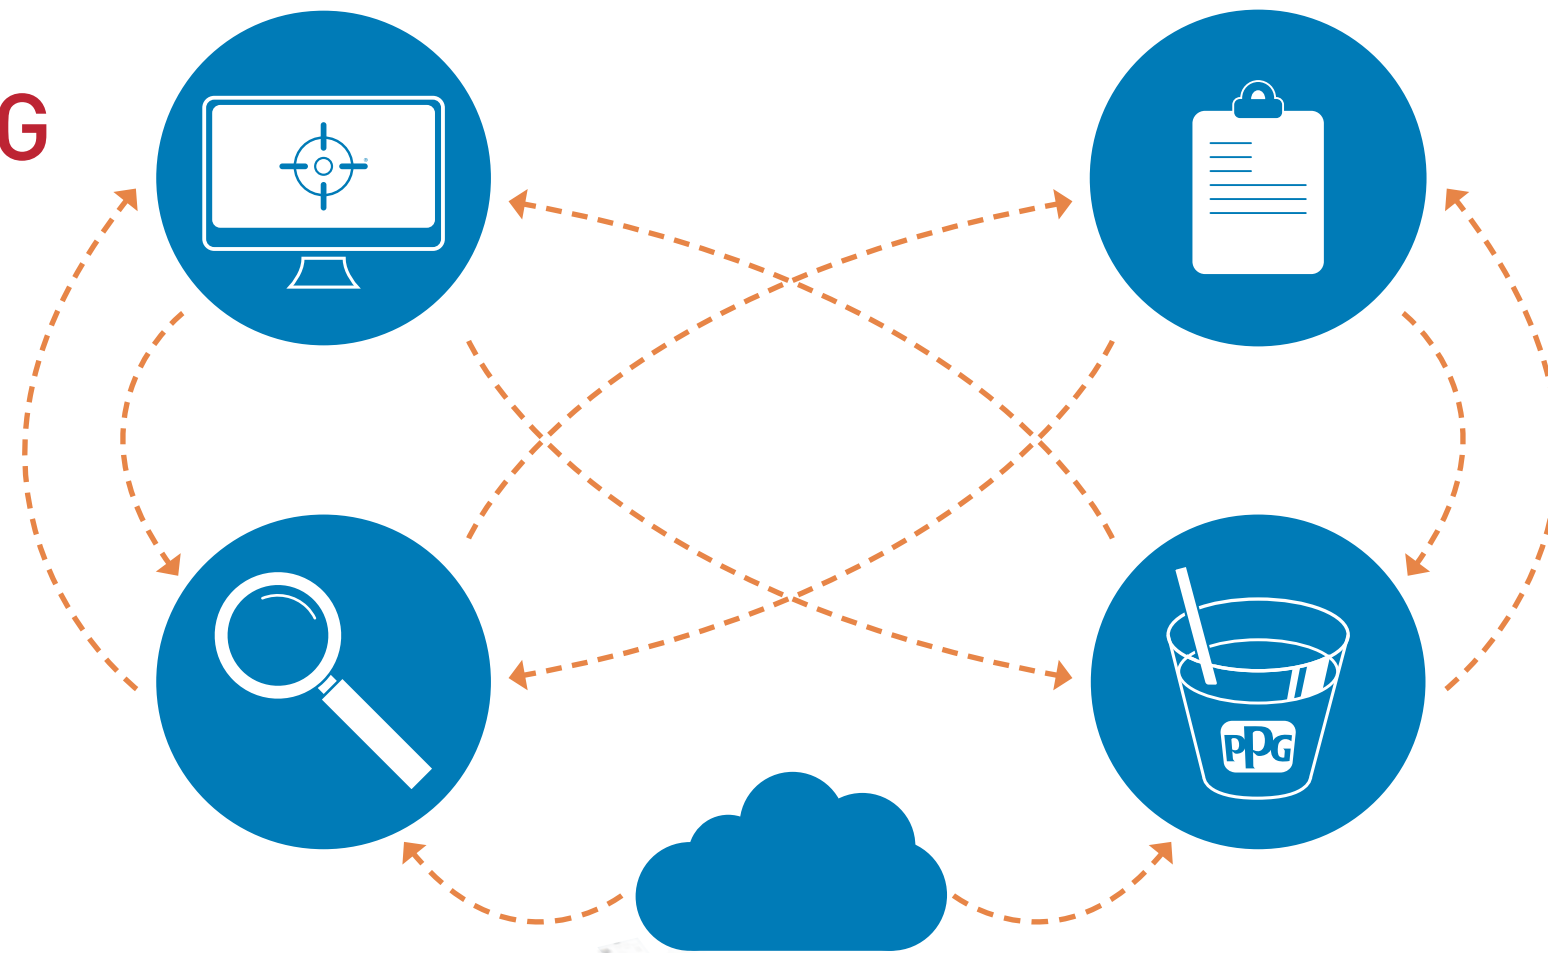

The new *PaintManager XI* software features numerous process improvements and a more intuitive workflow that streamlines the paint tracking and cloud-based reporting processes to make it even easier for customers to manage and evaluate shop performance.

In addition, the software program elevates the user experience with a more modern, visually-appealing interface, improved navigation and greater opportunities for collaboration and integration across locations and within organizations.

KEY FEATURES

The next generation *PaintManager XI* software includes the following enhancements:

- Single, touch-friendly, modern user interface
- Easy set-up via Wizard functions
- Improved search enables smarter color selection
- Combined workflow yields less clicks and fewer screens
- Improved instrument interfaces provide digital color selection opportunities
- Streamlined paint tracking and reporting features
- Greater collaboration with shared custom formulas, searchable sprayout libraries and paint consumption metrics

TEAM SUCCESS FACTORS

Coupled with state-of-the-art advancements in spectrophotometry and compliant “touch” mixing hardware, this next generation paint management tool delivers new heights in productivity.

FEATURE	BENEFIT TO THE PAINTER	BENEFIT TO THE OWNER	INCREASED COLLABORATION
COLOR SEARCH <ul style="list-style-type: none"> • Smart • Intuitive • Efficient • User-Friendly • Visual 	POPULATED SEARCH FUNCTIONALITY Powerful “smart” search engine provides results with minimal input.	CONFIDENT COLOR MATCHING Exact color search results are achieved with precision at any point in the process.
